

VENTURE VAULT

Idea, Research & Technical Project Showcase

Mecha Rush'26 · Dept. of Mechanical Engineering · BSACIST

EVENT BRIEF

Venture Vault is a research and technical project showcase that invites participants from all departments to present their work before a panel of expert judges. Whether you are pitching a novel concept, sharing ongoing research, demonstrating a working prototype, or presenting a completed project or paper — Venture Vault is the stage for it.

Teams present their work, articulate their approach and findings, and defend their methodology through a live Q&A session. The event recognises technical rigour, original thinking, and the ability to communicate complex ideas with clarity. Where applicable, the commercial and startup potential of the work is also evaluated.

VENUE & SCHEDULE

Venue Convention Hall-2, 1st Floor, Auditorium | April 7, 2026

Time	Activity
10:00 AM – 1:00 PM	Presentation Sessions 1 & 2
1:00 – 1:30 PM	Lunch Break
1:30 – 3:00 PM	Presentation Session 3
3:00 – 3:20 PM	Judging & Evaluation
3:20 PM	Results Declaration & Group Photo

ELIGIBILITY & TEAMS

- Open to all undergraduate and postgraduate students across all departments
- All team members must be from the same college
- Individual or 2-member team participation — no larger groups
- All participants must carry their college ID and confirmation mail
- Only pre-registered participants are permitted to compete

WHAT YOU CAN PRESENT

Venture Vault welcomes work at any stage of development. You may present any of the following:

- A novel idea or research concept with a well-reasoned approach
- Ongoing research or a work-in-progress project
- A completed project with results and findings
- A published or submitted technical paper
- A working prototype or proof-of-concept demonstration

EVENT FORMAT

Total Time per Team = **12 Minutes**

Segment	Duration	Description
Project / Research Presentation	5 – 7 min	<i>Core pitch — background, methodology, findings or implementation, and impact</i>
Q & A Session	2 – 5 min	<i>Panel of judges questions the team on the concept, approach, and outcomes</i>

Teams must strictly adhere to the time limit. Exceeding the allocated time may result in a penalty. Prototypes, models, or demonstration materials must be managed within the 12-minute window.

PARTICIPATION RULES

- Participants must respect the event schedule and follow all instructions from coordinators
- An abstract of the work must be submitted during registration
- A PPT of maximum 10 slides must be prepared based on the reference template provided — submit before the event if requested by the organisers
- Proxy participation is strictly prohibited — registered participants must be personally present
- Unregistered individuals must not be brought into restricted event areas
- Professional behaviour and discipline must be maintained throughout
- Once registered, team composition cannot be changed

EVALUATION CRITERIA

Each presentation is assessed by the judging panel across the following criteria. Their decision is final and binding.

Criterion	What Judges Look For
Research / Technical Depth	Rigour of methodology, understanding of domain, and novelty of approach
Innovation & Originality	What is new — novel design, fresh application, unique perspective, or original findings
Implementation & Feasibility	How much has been built, tested, or validated — from working concept to full prototype
Presentation & Communication	Clarity, structure, confidence, and effectiveness in handling the Q&A
Startup / Commercial Potential	<i>Real-world applicability, scalability, or market relevance — evaluated where present</i>

Startup / Commercial Potential is a bonus criterion — evaluated where present. It is not mandatory and will not penalise entries where this dimension is absent.

CODE OF CONDUCT

- Professional conduct and mutual respect toward judges, organisers, and fellow participants is expected at all times
- Any form of plagiarism — copied ideas, lifted content, or unoriginal work — will result in disqualification or a significant mark reduction
- Disruptive behaviour during any team's presentation will not be tolerated
- Presentations must not contain offensive, inappropriate, or unethical content

DISQUALIFICATION

- Proxy or substitute participation without coordinator approval
- Plagiarism or use of copied, unoriginal work
- Disruptive or unprofessional conduct during the event
- Failure to submit the abstract and PPT as required on time
- Violation of any rule at the discretion of the organising committee

Judges' decisions are final. Event coordinators reserve the right to modify rules for smooth execution.
